Drivetechn4x4

Drivetechn 4x4 is Nationally distributed through the Motospecs National branch network with branches in New South Wales, Queensland, Victoria (also servicing Tasmania), South Australia (also servicing Northern Territory), Western Australia and Auckland New Zealand.

Motospecs is focussed on customer satisfaction and providing quality parts to the market. It has a strong portfolio of innovative product brands and prides itself on broad availability of parts coverage for most makes and models, competitive pricing and high order fill.

Motospecs prides itself on customer service and technical expertise. Wherever you are in Australia or New Zealand, Drivetechn 4x4 sales and technical support is only a phone call away.

Australia 1800 463 646.

New Zealand 0800 333 125.

STOP HERE!

Whether it's a proportional or timer brake control, stop with the experts in electric trailer braking!

The graphs below depict both Proportional (a) and Timer (b) trailer brake control power output to trailer brakes during a normal stopping situation (Chart 1) as well as an emergency stopping situation (Chart 2).

In both a "normal" and "emergency" braking event, a timed brake control will start to apply the trailer brakes when the brake pedal is depressed until the preset braking power is reached (typically 3 seconds) and will continue to hold at that preset power until the brake pedal is released.

In contrast, a proportional brake control will sense the type of braking event, whether "normal" or "emergency", and then apply power to the trailer brakes in proportion to the deceleration of the tow vehicle. During normal stops, proportional controls sense the slower reduction in reduced forward motion. As the brakes are applied, you get smooth, gradual stopping power. In a sudden, emergency stop, proportional controls take less than one second to deliver 100% of their full stopping power making certain you have all the power you need when you need it.

Proportional Brake Controls

P3®

TAKING INNOVATION TO A WHOLE NEW LEVEL

After receiving valuable insight from industry experts and our own customers, Tekonsha® did something truly amazing: We listened and responded. The result is the P3; the industry's most advanced electric trailer brake control. A true proportional braking system, P3 has several added features, making it the new standard for electric trailer brake controls.

- A distinct, easy-to-read LCD display with multiple screen color options
- "Up-Front" controls provide easy access to all P3 features
- Easy to understand diagnostics show output current, battery/ brake/output voltage
- A "flashing red" warning system alerts user to "No Trailer Brake" situations
- Select Electric over Hydraulic or Electric trailer brake mode
- Screen information display in English, French or Spanish
- "The Original Boost" feature allows for different levels of customized braking
- Compact, dash-hugging design
- Unique, easy-to-use, clip-mounting system
- Quick disconnect feature for easy storage
- Electric trailer brake control for up to 4 braking axles
- Limited lifetime warranty (some conditions apply)

Part Number: DT-90195

Proportional Brake Controls

PRODIGY® P2

PRODIGY® P2

ADVANCED INTELLIGENCE

- Reverse battery protection for both vehicle and breakaway
- Designed to work with electric over hydraulic brake systems
- Numerous mounting options – including 360 degree vertical rotation
- Digital display depicts voltage delivery to trailer during braking
- No level adjustment necessary – it adjusts itself to varying terrain as you drive
- Great for backing into tough spots! Works proportionally in reverse - with the ability to disable when not needed
- Produces stops that are in proportion to vehicle's deceleration rate
- "Boost" feature gives users the ability to apply more initial trailer braking power when towing heavier trailers
- Continual diagnostics check for proper connection, shorted magnet conditions and much more
- Quick and easy disconnect feature allows user to remove and store the control when not in use
- Electric trailer brake control for up to 4 braking axles
- Limited lifetime warranty (some conditions apply)

Part Number: DT-90885

PRIMUS™ IQ

PRIMUS™ IQ

THE SMARTER BRAKING SOLUTION

Primus IQ is a totally proportional electric trailer brake control. This easy-to-set system allows the driver maximum flexibility when determining how the trailer should respond to a braking event. Snap-in dash mounting clip and removable electrical connector allow the unit to be quickly stored (or moved to another vehicle) when not in use.

- Works proportionally in reverse
- No level adjustment necessary, adjusts to varying terrain as you drive
- Digital display shows voltage to trailer during braking
- "The Original Boost" feature allows for customized braking
- Pre-assembled wire harness for simple hook-up and quick disconnect
- Diagnostic features incorporated in LED display
- Electric trailer brake control for up to 3 braking axles
- Limited lifetime warranty (some conditions apply)

Part Number: DT-90160

VOYAGER®

VOYAGER®

The Voyager incorporates Tekonsha's patented braking sensor and is the best value you'll find for smooth and secure trailer braking. It's compact size and features, like a bicolored LED brake monitor (to assure a complete connection to trailer brakes and give an indication of relative braking power being applied) make the Voyager extremely versatile. Voyager minimizes interference with tow vehicle electrical systems, uses a four wire hook up, has a broad setting range and is compatible with most any vehicle.

- Broad control range makes setting quick and easy
- As braking power is applied, the LED changes color gradually from green (completed circuit) to red, to indicate relative braking power
- Advanced electronics minimize false braking for smoother ride
- Electric trailer brake control for up to 4 braking axles
- 5-year limited warranty

WARRANTY

All Drivetech 4x4 parts are warranted against defects in workmanship or material for a period of 12 months or 20,000kms from the date of sale, whichever ever occurs first, unless otherwise stated. Drivetech 4x4 parts found upon examination by an authorised Motospecs representative to be defective in material or workmanship will be replaced by Motospecs. The cost of returning parts under this warranty must be borne by the customer and must be pre-paid. In order to make a claim under this warranty, the faulty product, proof of purchase and the reason for or details of the failure must be provided to Motospecs.

This warranty does not cover damage by misuse or improper installation, or liability for labour charges or consequential loss or damage incurred as a result of the failure of a Drivetech 4x4 part.

FOR GOODS PURCHASED IN AUSTRALIA ONLY

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

COPYRIGHT NOTICE

Motospecs, a division of Exego Pty Ltd ABN 97 097 993 283 is the owner of copyright in this publication, including layout, drawings, photographs, text and part number systems. No part of this catalogue may be reproduced or copied in any form or by any means without the prior written permission of Motospecs. This catalogue has been prepared for the Australian market. Due to vehicle production changes and supersessions, you should ensure that the part you are selecting is suitable for your application.
