

OCTOBER 2018

DQ250 / 02E Volkswagen DSG Wiring Ribbon & Contact Plate

A new Wiring Ribbon and Contact Plate is now available to suit the 6 Speed Wet Clutch DSG as fitted to many Volkswagen Audi Group Vehicles.

Over time, the plastic contact plate may become brittle and lead to solenoid connection issues resulting in fault codes and incorrect shifts. Replacement of this plate / harness assembly when replacing solenoids will help ensure a complete repair.

Part Number: VXE-160050
