FEATURED PRODUCTS

The hardworking, fast-drying rust protection that's like no other. Krylon Rust Protector Paint Outperforms the Competition!

With dry time as little as 8 minutes, dirt, dust, grass and debris don't have a chance to ruin your project. That's because the only thing that Krylon Rust Protector leaves behind is a flawless finish and unbeatable corrosion protection.

Fastest dry. Strongest finish.

- Dries to a smooth, durable, rust-fighting finish in as little as 8 minutes (up to 15 times faster than the leading aerosol rust competitor)
- Adheres direct to metal surface for effective corrosion protection without the use of primer
- Advanced formula for superior adhesion and performance
- EZ Touch 360° dial spray nozzle
- Offered in 15 popular colours and finishes plus a complete line of primers for added protection
- Can also be used on non-metal substrates
