### Ferodo SUV Brake Pads

Across the world, Ferodo ThermoQuiet brake pads enjoy a reputation for high performance braking that is not only reliable, but incredibly quiet with low dust levels. It's no wonder Ferodo ThermoQuiet is recognised as the preferred choice of brake pad by countless mechanics and workshops here in Australia.

Within the Ferodo ThermoQuiet range, is TQ SUV – ThermoQuiet pads designed specifically for SUV applications. There are **64 references** currently available, covering all popular SUV vehicles. An additional **23 references** will be available over the next 6 months.

As the most technologically advanced brake pad available in Australia, it's no surprise Ferodo ThermoQuiet has earned such a strong reputation for performance, reliability and longevity. As well as being incredibly quiet, Ferodo ThermoQuiet are a low dust pad so they help to keep customers' wheels clean. They offer excellent OEM pedal feel, long lifespan and of course great stopping power.

In addition to Ferodo ThermoQuiet, Ferodo offers other pad grades for SUV vehicles: **Ferodo WD** is a traditional OE style brake pad offering outstanding performance and **Ferodo GP2** a budget pad. Both are highly reliable and good value pads.

To discuss the new range of Ferodo ThermoQuiet as well as other Ferodo SUV brake pads, please make contact with your Motospecs representative.
